

WEATHER PROTECTION FOR ELECTRO-MOTORS

Weather protection with air cooling intake and output for electro-motors

- Suitable for Gram fans type VT, VL, VH, VF and VE
- Can be refitted
- Prevents snow, ice and water penetration to cooling grid at cooling wheel on electro-motors, where frost can arise that causes icing up by which the motor can be da-maged at the next start
- Made in galvanized, powder enamelled steel

Type	Order no.	A	B	C
VT 500	03 010 800	250	ø338	ø128
VL 550	03 013 800	285	ø408	ø163
VT 1000, 2000 VL 750, 1150 VF 1500	03 030 800	285	ø408	ø163
VF 2000, 2500 VH 900, 1800, 2700, 3800/1, 3800/2	03 230 800	370	ø508	ø203
VE 2200, 3000	03 235 800	370	ø508	ø203
VE 4000	03 240 800	370	ø508	ø203
