

MOUNT FANS

The mount fans are part of a flexible system, where a filter unit is selected, e.g. FRS 10-20, OUK 4000, SKF 4000, or a filter cabinet type KF1, AF1 and AFK1, whereafter a fan module is selected with the required equipment - see below.

Fan module is bolted on the filter module.

The fans are not included by ERP 2013/2015 (EU 327/2011), since the fan is built as a transport fan.

Fan versions:

- B. Fan with sound enclosure type VBS with outlet in top.
- D. Fan with sound enclosure type VBU, HEPA/H13, with outlet in top/grid, with Minihelic-differential pressure manometer (0 - 1kPa).

Mount fan, 3x400V, 2-pole, 50Hz:

Nr.	VL 1150 1.10 kW	VE 2200 2.20 kW	VE 3900 4.00 kW	VPH 1600/2 4.00 kW	VPH 1600/3 5.50 kW	RVH 35/2 4.00 kW	RVH 35/3 5.50 kW

MOUNT FANS

Mount fans VL/VE

Mount fan VPH

Mount fan RVH

Fan version no. B:

- Selection option of fan types VL, VE, VPH and RVH, 2-pole
- Sound enclosure type VBS
- Outlet chamber lined with bonded foam type A1
- Colour: RAL 5007/7011 (structure)

Mount fans VL/VE

- Outlet in top by connection
- For mounting on top of M7-filter cabinets

Mount fan VPH

- Outlet in the side (round)
- For mounting on top of filter unit type FRS

Mount fan RVH

- Outlet in the side (square/round)
- For mounting on top of filter unit type FRS

MOUNT FANS

Fan version no. D:

- Selection option of fan types VL and VE, 2-pole
- Sound enclosure type VBU
- Outlet chamber lined with bonded foam type A1
- Outlet in top/grid
- Absolute filter (HEPA/H13) on fan pressure side - functions as noise damper
- Minihelic-differential pressure manometer (0-1kPa)
- Colour: RAL 5007/7011 (structure)
